SERHII OPANASENKO

SOFT SKILLS

Communication
Problem-solving
Adaptability
Teamwork

HARD SKILLS

MongoDB
Dart
Flutter
Angular
Git/GitHub
Nest.js
Reactjs
TypeScript
SQL

ADDITIONAL SKILLS

C#
Python
Telegram API
Firebase
DevOps

ABOUT ME

PROFESSIONAL SUMMARY:

Dedicated IT Specialist with experience in managing and supporting complex IT systems. Seeking a challenging position as a Web/Mobile Developer to contribute technical expertise in ensuring efficient IT operations.

EDUCATION:

Graduated from the Bachelor of Science in Computer Science program at the Institute of Telecommunications and Informatization, showcasing exceptional academic performance and a deep understanding of core concepts in IT infrastructure. Currently pursuing a Master's degree as the second stage of higher education, further deepening expertise in the field.

Graduated June 2024

WORK EXPERIENCE:

Web Developer in OX Company.
Managed Firebase infrastructure, including authentication and database operations. Developed and maintained React.js web applications and Python-based Telegram bots, focusing on API integration and automation. Assisted in system upgrades, migrations, and web application enhancements.

February 2023 - February 2024

Full Stack developer in MITIT.

Developed the POW Search Subsystem, a MERN-stack application for tracking and identifying prisoners of war. The system included user authentication, a search request module, an admin panel, and a MongoDB-powered database. Designed and implemented core functionalities, ensuring scalability and usability. Worked on the project for a certain period, gaining hands-on experience in full-stack development and deployment.

November 2023 - May 2024

PROFESSIONAL DEVELOPMENT

WORKSHOPS

- Attended workshops on Flutter & Dart (UI development, state management, API integration), React for web applications, and Python-based Telegram bot development (automation, API integration, deployment).

CONFERENCES

- International Conference on Cyber Security Infrastructure Management

CERTIFICATIONS

- ReactJS/Redux
- JavaScript(HTML5\CSS3; Node.Js, Express.JsWebPack, ES6);
- Flutter/Dart
- NestJS
